NutriPill

BUSINESS PROPOSAL

# NutriPill

*Essential nutrients for busy days*

By Dani, Max, William & Miguel

# Introduction

## Have you ever been too busy to eat?

Think about a day with classes in the morning, training in the afternoon and homework at night. Sometimes, lunch just doesn't happen.

NutriPill

That's why we came up with NutriPill: one small pill with the nutrients your body needs, for the days when you can't sit down for a proper meal.

Small | Simple | On the go

NutriPill

# The Problem

A lot of people don't have time to cook, or even to sit down and eat. Students rush from one class to the next, and many workers eat at their desk, or don't eat at all.

## Low energy

By the afternoon you feel tired and slow, even if you slept well.

## Hard to concentrate

It's really difficult to pay attention in class or at work when you're hungry.

## Poor nutrition

When people do eat in a hurry, it's usually crisps, sweets or fast food.

**They need something quick and easy that still gives their body what it needs.**

NutriPill

# Our Solution

### Quick to take

Just take it with a glass of water and you're done.

### Fits in your pocket

Carry it in your backpack, gym bag or jacket.

### Keeps you going

Extra nutrients to keep you active until your next meal.

### Made for busy days

For exam weeks, long shifts or non-stop days.

**To be clear:** NutriPill doesn't replace a real meal. It's there for the days when a proper meal just isn't possible.

NutriPill

# Who Is Our Brand Directed To?

We're thinking about people who want to eat well but often can't find the time, people a lot like us.

## Students

Early classes, exams and homework. Lunch is often the first thing we skip.

## Workers

People who work long hours and skip lunch to get everything done.

## Athletes

They train hard and need extra nutrients to recover and perform well.

## Hectic lifestyles

Parents, commuters, anyone whose day never seems to stop.

NutriPill

# Action Plan

How NutriPill will make money and reach people:

01

## Revenue

We'll sell NutriPill directly, online and in person, and also earn money from events and pop-up stands.

02

## Channels

Our customers are on Instagram and TikTok, so that's where we'll be. We'll also have stands at schools and gyms.

03

## Pricing

Cheap enough for a student to buy, but with the quality of a premium product.

NutriPill

# Growth Strategy

01

## Post real content

Short videos of a normal busy day: early class, training, and NutriPill in between.

02

## Work with local influencers

Local athletes and creators who actually live busy lives, not just anyone with followers.

03

## Organise events

Free sample days, personalised kits and collaborations with gyms and sports clubs.

04

## Listen to our customers

Ask for their opinions, share their stories and let them help shape new products.

NutriPill

# Our Proposal

## We are looking for brands that want to grow with us.

For example, a gym, a sports brand or a healthy café. They help us reach more people, and in return they get noticed by young customers who are hard to reach.

**TOGETHER, WE COULD:**

- Create joint products, like a gym pack with NutriPill
- Run campaigns together to reach more people
- Earn trust, because a partner people know makes us more believable

NutriPill

# What We Expect to Achieve

## In 6 months

Have a group of loyal customers who use NutriPill and talk about it online.

## In 12 months

Reach more people online and double the number of customers we have.

## In the long term

Become a well-known brand in our city first, and then grow across the whole country.
